

SNHCoC External Monitoring TH Program Specific Tool - Year 5

Overview: This tool was developed based on the logic and design of the Housing First Standards Assessment Tool as provided by the U.S. Department of Housing and Urban Development by the Strategic Progress External Monitoring Team in collaboration with Clark County Social Service and the SNHCoC Monitoring Working Group. The tool is designed for deployment by the External Monitoring Team at the recipient/subrecipient level for Transitional Housing (TH) program monitoring and compliance assessments. This tool is being deployed as one of a series of tools that have been developed by the Strategic Progress External Monitoring Team, a working group from the SNHCOC, BitFocus HMIS data reports, and HUD. The goal of this tool is to provide a program-specific outcome score for monitoring based on HUD Handbook and CFR standards, regulations and requirements. Ultimately, the final score of this tool will inform the overall monitoring score for SNHCoC HUD funded programs for consideration and inclusion in the annual Scoring and Ranking process for available HUD grant funds.

Provider & EMT Information Tab: Modified from the Housing First Standards Assessment Tool, the Provider & EMT Information tab is designed to collect agency/organization specific information for points of contact for the recipient/subrecipient, program administrators, and External Monitoring team members. From a transparency perspective, this tab will collect all relevant information to the programs, recipients/subrecipients, External Monitoring Team, and related high level data elements.

Standards: Similar to the Housing First Standards Assessment Tool, this tool seeks to identify available groupings or partitions of standards to be assessed, monitored, and evaluated during External Monitoring. For the purpose of this tool, standards are defined as specific component areas of the HUD Handbook, where available. Conducting this type of grouping allows for internal tool weighting practices, which assists with prioritization of monitoring and evaluation outcomes.

Project Type: This tool was developed for Transitional Housing Project Types to be conducted at the program level as a standalone tool from other developed tools. The design of this tool ensures maximization of monitoring efficiency and effectiveness from the agency/organization and program-specific perspectives.

SNHCoC External Monitoring TH Program Specific Tool - Year 5

Safeguarding: This tool is designed and will be deployed to safeguard concerns when assessing Transitional Housing projects. Specifically, this tool will work to assure client record confidentiality especially with programs designed to serve victims of domestic violence. The External Monitoring Team will ensure adequate safety and confidentiality policies and practices are implemented and adhered to throughout monitoring activities.

Scoring (modified from the Housing First Standards Assessment Tool) : For each standard, there are three scoring criteria: "Say It", "Document It", and "Do It" (as explained further below). To show that a project is in full compliance with each standard, the assessor (monitor) should mark "Always/Every time, 100%" for each scoring criteria. Use the drop down in the three columns to the right and select "Always/Every time, 100%", "Usually, 80% to less than 100%", "Frequently, 60% to less than 80%", "Sometimes, 40% to less than 60%", "Occasionally, 20% to less than 40%", "Rarely, less than 20%", or "Not at All/Never, 0%" (NOTE: this tool includes a "N/A" option that will be available for all standards). Once an answer is chosen, the Report Summary tab will automatically update to reflect the answers.

~"Say It" means that project and agency staff can describe verbally what they do concerning each standard. The assessor (monitor) should be able to identify that the organizational culture supports the standard by how staff talks about what is done.

~"Document It" means that there is written documentation that supports the project's compliance with each standard. Written documentation could include Policies and Procedures, Personnel Handbooks, Professional Development Plans, Project Rules, etc.

~"Do It" means that the assessor (monitor) was able to find evidence that supports the project's compliance with each standard. Evidence could include information contained in client or other administrative files, client acknowledgement that something is being done, staff can point to documentation that supports implementation of the standard, etc.

Assessor (Monitor) Notes: A cell below each individual standard allows the assessor (monitor) to add optional notes about the information collected for that particular standard. The notes can include where the information was found, what questions were asked, who answered the questions, what additional information is needed to be able to mark that standard as "Always/Every time, 100%", "Usually, 80% to less than 100%", "Frequently, 60% to less than 80%", "Sometimes, 40% to less than 60%", "Occasionally, 20% to less than 40%", "Rarely, less than 20%", or "Not at All/Never, 0%" (NOTE: this tool also includes a "N/A" option).

SNHCoC External Monitoring TH Program Specific Tool - Year 5

Tab	Description	Purpose
Provider & EMT Information	Details for the provider, provider contacts, program(s) for monitoring, and EMT contact and role assignment	To promote transparency of the monitoring process and implementation and guide the monitoring of specific programs in collaboration with each provider and associated staff.
HUD Handbook 29-4	Lists each standard for assessment from the HUD Handbook 29-4 with associated CFR or other regulatory entity as pertinent to TH programs.	Assesses the relative compliance of the provider across TH operations and program administration pursuant to HUD Handbook 29-4
HUD Handbook 29-9	Lists each standard for assessment from the HUD Handbook 29-9 with associated CFR or other regulatory entity as pertinent to TH programs.	Assesses the relative compliance of the provider across TH operations and program administration pursuant to HUD Handbook 29-9
CoC TH Program Specific Tool Scoring	Provides the program-specific outcome scores for the included Standards, Comprehensive Section, and Overall Tool Score.	Designed to calculate and display the program-specific total score for each Standard Comprehensive Section, and the Overall Comprehensive Score for final scoring and reporting procedures.
