

# SNH COC GOVERNANCE CHARTER DRAFT

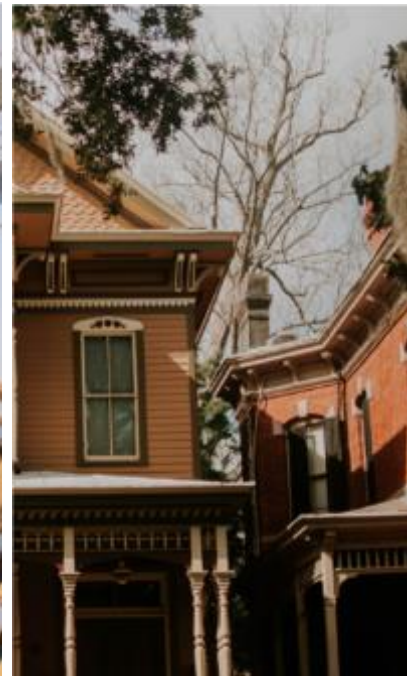

“The current board for the Southern Nevada Homelessness CoC is large with little oversight of CoC activities. The recommendations provided (by HUD TAs) seek to empower the CoC board to effectively govern the CoC while re-centering the community it represents.”

Our community.

Keep in mind- “The CoC board is generally a group of individuals elected by CoC members that provides oversight and governance on behalf of the CoC. The board should be comprised of a diverse group of organizations and projects serving homeless populations and subpopulations within the CoC’s geographic area.” *HUD TA Providers*
